

# Ocular Blood Flow Summit 1<sup>st</sup> OBF Summit 2019

## 2<sup>nd</sup>–5<sup>th</sup> September 2019

Mount Rigi, Hotel Rigi Kaltbad, Zentrum 4, CH-6356 Rigi Kaltbad, Switzerland

### Invitation

**Dear Colleague,**

**Ocular blood flow (OBF)** not only plays a key role in many eye diseases but also reflects the vascular general health of a patient. In recent times, there has been significant progress in the diagnosis, treatment and prophylaxis of OBF dysfunction. This has motivated us to organise a state-of-the-art meeting where experts in the field of OBF meet in order to share their experience and expertise. Thankfully, many internationally renowned clinicians and scientists have already agreed to join the

#### 1<sup>st</sup> Ocular Blood Flow Summit 2019

The **1<sup>st</sup> Ocular Blood Flow Summit 2019** will take place in the first week of September 2019 (2–5 September) from Monday to Thursday in Rigi Kaltbad, which is one of the most scenic places in the Swiss Alps.

For the **scientific programme**, please click [here](#).

To find more **information** about the summit and its **organisation**, please [here](#).

At this summit, we aim to facilitate exchange of knowledge beyond the seminars and promote a holistic environment for scientific exchange. Thus, we encourage you to have relaxed discussions during the organised short hikes in the mountains.

For more information about the **venue** and the area, please click [here](#).

If you are interested in learning about the recent developments in the field of OBF and networking with experts from different parts of the world, please **register** [here](#).

Please contact us at [obf@healthbook.ch](mailto:obf@healthbook.ch) if you have any questions.

We wish you a beautiful summer and look forward to welcoming you in Rigi Kaltbad this autumn.  
Kind regards,
